

Drummond Certified™ Health IT Certificate

WellSky has obtained the Health IT Model certificate for its software solutions for Palliative Care, Long-Term Acute Care Hospitals, and Inpatient Behavioral Health. For more information on WellSky's certification, please contact Kelly Phillips as listed below.

This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Any additional types of costs that an EC, , EH, or CAH would pay to implement the Health IT Module's capabilities to attempt to meet CMS objectives and measures. This must also include any material product contractual limitations. Refer to the Drummond Group Mandatory Disclosure Attestation document for more details. Self-developers are excluded from this requirement.
